TRAILWIND™

Power To Spare In A Versatile, Power Vacuum Trailer

Top Dollar-For-Dollar Performance

The TrailWind by Wm. W. Meyer & Sons, Inc. provides the strength of a truck mounted vacuum without the additional expense of a truck. Insurance, taxes and the additional maintenance of another vehicle are virtually eliminated, leaving you free to use your money for other important business expenses.

Self-Contained, Enclosed Cargo Trailer

Whether you're a large commercial contractor or an entrepreneur working from a home office, the TrailWind eliminates the need to store a large commercial vehicle on your property, while at the same time providing the security and peace-of-mind of a locked, enclosed cargo trailer to store your valuable tools and equipment.

Powering Your Business Growth

As a versatile option to a truck mounted vacuum system, the TrailWind's lower initial cost and ability to complete large or small jobs quickly will fuel your company's growth by making you more competitive and more profitable on every job. And the added benefit that the trailer doubles as a large billboard, both on the job or between them, will help keep your phone ringing and your business growing. It works smarter, it works harder, it just plain works.

31 HP Briggs Vanguard OHV engine
